Dear Betty & Jim,

Sorry you were unable to be with us on Sunday. We had a wonderful Centenary celebration & I feel I must write to you & tell you how impressed I was with your family, you must be justly proud of them all even your Grand children, it seemed hard to believe that you were represented by a Great Grand child.

We were sorry you were unable to celebrate with us but no doubt you will have had a ball to ball account of the day by now.

On an occasion such as we had memories of our childhood days were revived & last night my dreams took me back to 'Rosedale' & those wonderful days, have always had a soft spot for you, the way you looked after me at school, your expertise on the piano, as well as kicking the football, all of these dreams seemed so real. No doubt my dreams were suggested off by your Grandson, I think his name was Jason from Canberra. I was feeding some of the sheep in the shed when he wandered in, he said he had no idea he came from a family with such tradition & felt he was given a new vision something to be proud of to be part of that tradition.

19...

I was very impressed with this lad, should not be surprised when one looks at his pedigree.

Although we do not come across our paths much these days & have drifted apart over the years our memories & thoughts will never be taken away from our buy tie.

Norma & I seem to have the ability to get busier each year, (something not to be very proud of) have a trip organised for UK in June & then back in time to organise ourselves for the show, had a couple of weeks in Korea & Japan last month.

Once again sorry you could not make the celebration, trust you are both feeling better, with love from us all at Kelso Park.

Yours sincerely  
Ray.
