Dear Lyle & Annette, greetings from your
stubborn old Uncle. I hope you are
both well, & flourishing in your new
calling in life. I think you have found
something which you have seeking
for some time, & feel that your
faith & enthusiasm will be fully
rewarded. I hope the children are all
well. you have a fine family— one
of which I know you are justly proud.
They will prove a rich blessing
to you in many ways through life.
We are still the old mediocre
crowd at Kaniva. Living amongst
the beauties & bountiful gifts of
God, gives a contentment in life,
and although in the backwash
of what is called civilization, we
find a real pleasure in the
wonderful works & love of God.
Selma & myself are doing well in
the home, & manage very well. It
has many fond memories for me,
& although saddened at times.

The happy memories far outweigh
the natural sadness of the heart.
We were so pleased to see you all, &
meet Annettes father & mother.
Since your visit Barry McFhee has
called in on his way from W.A. &
again last week visited us with
his fiancée - Bev Shearer. She is
doing her last year at Melb Uni
before going out as a secondary
teacher. Barry also graduates from
Monash, but he is set on being
a primary teacher. Bev is a lovely
girl, no smokes, no drugs, &
no permissiveness. It was ray of
sunshine to meet her & know that
she loves her grandpa to be. A
lovely, quiet, unobtrusive girl. She
thinks the Potts family at Kaniva
are lovely people. We have had a week
of hot days & warm nights. A slight
cool change, but more heat
promised. I seem to thrive in the
heat. The Federal Govt. has panicked
over inflation & is creating it

our unemployed market. The consensus
of opinion amongst economic "experts" is
still the same as 1929, that is unemployment
is a cure for inflation & we have
about the 6% rise in wages, & blames
~~it~~ it for his economic ills, & he
says nothing about the \$11,000 million
interest annually Australia has to pay,
nor anything about the millions of
profits sent overseas, for which we
pay with exports. He talks about
greater productivity, on the other
hand, asks the primary industries
to cut down on production. Primary
industry was over \$400 million down
last financial year. The whole economy
is in a mess. will remain that way
until our Govt. stops borrowing
from banks, & paying heavy interests
on loans. Man through his ungodliness
greed, & disregard for others, destroys
all the good that God has created. We
are manipulated by a few for their
financial benefit, & the insecurity &
sorrow of the many. Ben of deceived
God is not mocked. Keep the year 1975
marked on the calendar of your life.

you will see great changes, & the
Jews will be scattered throughout
the world, so walk in penny with
every door closed against them, as was
the case many generations ago. Do
not teach those converts in Latin
America to turn the other cheek.
Remember the scourge in the temple.
People must demand their just
rights, & if this is carried out on
a Christian basis, all will be
well. The world has got to a stage
where the war must be won,
so see that the new era is guided
on lines set out by the Calvary.
Love to you both & the children,
with kind regards to Annette's
parents. She is Uncle Jay's little
pet.

Love

Uncle Jay

P.S. The purpose of this letter was to
tell you I have forwarded 12
copies of the family history to you
at the railway station.
